Front React, Next Developer

Full-Stack Software Engineer with strong expertise in modern frontend development, specializing in React.js, Next.js, Nuxt.js, and TypeScript. Experienced in building scalable, high-performance web applications with a focus on clean architecture, responsive UI, and excellent user experience. Strong backend development background with Node.js, ASP.NET Core, and Django, including API design, database integration, authentication, and cloud-based application development. Passionate about creating efficient, maintainable software solutions and leveraging modern technologies to solve complex engineering challenges.

PROFESSIONAL EXPERIENCE

Stone Bus • 2025 — 2026

Front React, Next Developer / Contract
Built a scalable collection of reusable UI components, hooks, and frontend utilities that improved code maintainability and reduced duplication, using React.js, Next.js, and TypeScript, reducing development effort and accelerating feature delivery through standardized UI patterns.

TatvaSoft • 2022 — 2024

Sr. Laravel Developer
Designed and developed a RESTful API using Laravel, enabling seamless integration with mobile applications and external systems, streamlined development processes by implementing debugging and automated testing frameworks like PHPUnit and continuous integration tools like Jenkins.

Freelancer • 2020 — 2022

Javascript, PHP Developer | Data Science
Converted Figma designs into pixel-perfect, mobile-first responsive applications and implemented server-side functionality using PHP, including business logic, form processing, authentication, and database integrations.

EDUCATION

Bachelor in Information Technology

Baliwag Polytechnic College • 2015 — 2019

SKILLS

Frontend Development React.js, Next.js, Nuxt.js, Vue.js, jQuery, TypeScript, Sass, Tailwind CSS, Authentication & Integration, REST API, Responsive Design, UI/UX, WebSockets, Optimization

Backend Development Express.js, Laravel, PHP, ASP.NET Core / C#, Django / Python, RESTful API Design, Authorization (JWT, OAuth)

Database PostgreSQL, MySQL, MongoDB

AI Python, TensorFlow, Pandas, Data Processing
